

Ascend Lettings Brand Guidelines

Version 1.0 — 2026

These guidelines set out how to use the Ascend Lettings brand consistently across every touchpoint — website, social media, print and correspondence. Consistency builds trust, and trust is central to what Ascend Lettings offers.

1. Brand Overview

Ascend Lettings is a UK letting agency that helps landlords let their properties and helps tenants find a home, with a focus on clarity, professionalism and doing things properly.

- **Who we are:** A professional, service-led letting agency. We focus on letting — finding and referencing quality tenants and getting tenancies set up correctly. We are not a property management company and do not imply we provide property management services.
 - **Brand personality:** Premium but approachable, trustworthy, organised, calm, honest.
 - **Mission:** To make professional property letting simple, transparent and stress-free for landlords and tenants alike.
 - **The “Ascend” idea:** The name and the ascending mark represent rising standards, upward progress and moving up — landlords growing their portfolios, tenants moving into a better home.
-

2. Brand Voice

Our voice is **professional, clear, confident, friendly, transparent and human.**

- Write in **British English** (e.g. organise, licence, tenancy, enquiry, neighbourhood).
- Be clear and direct. Short sentences. Plain words.
- Be warm and human — we are talking to real people about their home or their investment.
- Be confident and reassuring without over-promising.
- **Avoid corporate jargon**, buzzwords and filler (“synergy”, “best-in-class”, “leverage”, “solutions-driven”).
- Never invent statistics or make claims we cannot back up.
- Never imply we offer property management services.

Say: “We’ll find and reference quality tenants and get your tenancy set up correctly.”

Not: “Our best-in-class end-to-end solution leverages synergies to maximise ROI.”

3. Logo

The primary logo pairs a clean wordmark (“Ascend” in Playfair Display, “Lettings” in spaced Inter) with an **abstract ascending mark** — three upward-stepping gold forms that suggest rising bars, growth and upward motion. It is deliberately not a literal house outline.

Meaning: The three ascending elements represent progress and moving up — the core “ascend” concept.

4. Logo Variations

All variants live in `brand/logo/`. Use the right one for the context:

Variant	File	Usage
Primary	<code>ascend-lettings-logo-primary.svg</code>	Default logo — navy wordmark, gold mark. Light backgrounds.
Horizontal	<code>ascend-lettings-logo-horizontal.svg</code>	Wide/constrained spaces — headers, email, letterhead.
Stacked	<code>ascend-lettings-logo-stacked.svg</code>	Square/centred spaces — social profiles, adverts.
Icon / mark	<code>ascend-lettings-icon.svg</code>	App icons, favicons, avatars, watermark — where the wordmark won't fit.
Wordmark	<code>ascend-lettings-wordmark.svg</code>	Text-only lockup where the mark is redundant.
Black	<code>ascend-lettings-logo-black.svg</code>	Single-colour black — faxes, stamps, mono print.
White / reversed	<code>ascend-lettings-logo-white.svg</code>	On navy, charcoal, photography or dark backgrounds.
Transparent	All SVGs are transparent-background by default	Place over approved colours/imagery.

5. Logo Clear Space & Minimum Size

- **Clear space:** Keep clear space around the logo equal to the **height of the capital “A” in “Ascend”** on all sides. Keep other elements, text and edges outside this zone.
- **Minimum digital size: 120px wide** for the full logo.
- **Minimum print size: 30mm wide** for the full logo.
- The icon-only mark may be used smaller (e.g. 16px favicon) where the full logo is not legible.

6. Logo Do's and Don'ts

Do

- Use the supplied logo files without modification.
- Place the logo on approved backgrounds (off-white, navy, charcoal, white, or clean imagery).
- Maintain the original proportions — always scale width and height together.
- Use the white/reversed logo on dark backgrounds and the primary logo on light backgrounds.

Don't

- Distort, stretch or squash the logo.
- Recolour the logo or the mark outside the approved palette.
- Add drop shadows, glows, outlines, gradients or other effects.
- Rotate the logo or rearrange its elements.
- Place the logo on clashing colours or busy backgrounds where it loses legibility.
- Recreate the logo in a different font.

7. Colour Palette

Colour	HEX	RGB	CMYK	Role
Navy	#0B1F3A	11, 31, 58	81 / 47 / 0 / 77	Primary brand colour
Gold	#C9A84C	201, 168, 76	0 / 16 / 62 / 21	Accent / highlight
Off-White	#F7F5F2	247, 245, 242	0 / 1 / 2 / 3	Background
Charcoal	#1A202C	26, 32, 44	41 / 27 / 0 / 83	Dark text / dark sections
White	#FFFFFF	255, 255, 255	0 / 0 / 0 / 0	Reversed text
Mid-Grey	#4A5568	74, 85, 104	—	Secondary body text

CTA buttons

- **Primary CTA:** Gold #C9A84C
- **Secondary CTA:** Navy #0B1F3A

8. Typography

Primary — Playfair Display (serif)

- Use for: headings H1-H3, and supporting/logo materials.
- Weights: 400 Regular, 700 Bold.

Secondary — Inter (sans-serif)

- Use for: body text, navigation, forms, small print.
- Weights: 300 Light, 400 Regular, 500 Medium, 600 SemiBold, 700 Bold.

Heading scale

Level	Size
H1	56px
H2	40px
H3	32px
H4	24px
H5	20px

Body & spacing

- Body: 18px Regular
- Small: 14px
- Line height: **1.6** for body, **1.2** for headings

Both fonts are free from Google Fonts and are already loaded on the website.

9. Iconography

- Use minimal, modern **line icons**.
 - **2px stroke** weight.
 - Colour icons **navy or gold** depending on background (white/gold on dark, navy/gold on light).
 - Keep the style consistent — avoid mixing filled and line icon sets.
-

10. Photography Style

- Modern **UK interiors** and residential settings.
 - **Natural light**, bright and airy.
 - Professional quality — sharp, well-composed, uncluttered.
 - Show **diverse tenants and landlords** authentically.
 - Clean, calm and aspirational — never staged or stocky where it can be avoided.
 - Avoid low-quality, dated or heavily filtered images.
-

11. Button Styles

Button	Background	Text	Radius
Primary	Gold #C9A84C	Navy #0B1F3A	4px
Secondary	Navy #0B1F3A	White #FFFFFF	4px
Ghost	Transparent, white border	White #FFFFFF	4px
WhatsApp	Green #25D366	White #FFFFFF	4px

Keep button labels short, action-led and in sentence case (e.g. “Get a free valuation”).

12. Social Media Style

- Use the navy/gold palette consistently across every platform.
- The **brand icon (ascending mark) should always be present** — as the profile avatar and within templates.
- Keep a professional, helpful tone in captions; British English.
- Use the supplied templates in `brand/social/` for profiles, covers, posts and stories.
- Always keep the website URL visible on shareable graphics.

13. Digital Documents

- Use the **HTML letterhead template** (`brand/letterhead/letterhead-template.html`) for digital correspondence, and the SVG for print.
- **Always include the compliance footer** — ICO registration number and Property Redress Scheme membership number.
- Keep documents clean: navy header, gold accents, plenty of white space.

14. Do's

- Use the approved brand assets from the `brand/` folder.
- Maintain a consistent tone of voice across all channels.
- Always include compliance details (ICO, Property Redress Scheme) on business documents.
- Keep layouts clean, spacious and professional.
- Proofread in British English.

15. Don'ts

- **Never imply property management services** — Ascend Lettings is a letting agency.
 - **Never invent statistics** or make unverifiable claims.
 - **Never use unapproved colours or fonts.**
 - Don't clutter designs or overuse gold — it is an accent, not a background.
 - Don't alter, distort or recolour the logo.
-
